Designation of Funds on Which 5 Per Cent Reserves May Be Carried.

Declines to Handle a Dangerous Subject as to Bankers' Perquisites.

BY I. A. FLEMING.

The federal reserve board has found it necessary to amplify its ruling of November 11, 1914, on time deposits and to make plain to bankers general-November 11, 1914, on time deposits and to make plain to bankers generally just what its position is in the matter of deposits upon which banks need carry but 5 per cent reserve.

The reserve act provides that banks in the system shall carry a minimum of 5 per cent on all "time" deposits, but the interpretation of the term has been made by some bankers in accordance with conditions in their by-laws, to which the board objects.

The amplification by the federal reserve board sets forth the following facts:

"It is clearly not the intention of the "It is clearly not the intention of the Industry and Industry and Industry Indust

Thus, should the board lay down the general ruling that such fees or commissions could be accepted by bank officers or employes, such persons might go forward with interlocking business of this character, feeling that they were strongly fortified by the opinion put out by the board. Should such a case come to trial, the trial court might take another view of the matter, resulting in serious embarrassment.

ever, With Sales Below Recent Averages.

NEW YORK, January 23,-The course of today's two-hour session of the stock market bore the familiar week-end aspects. Yesterday's selling of leading stocks presumably for profits, was renewed on a very moderate scale, total sales being far below recent averages. Recessions ranged from minor to sub-stantial fractions in prominent issues, while Western Maryland, Missouri Pacific and "Soo" lost 1 to 2 points.

The net result, however, left the average of prices To easier money, more than any other factor, was attributed the revival of ac-

tivity. The west and other interior tivity. The west and other interior sections have been heavy buyers, speculatively and otherwise, of stocks, while the increasing volume of open bond sales, which was exceeded by "overcounter" trading, testified to the better investment demand. In fact, the broad and general inquiry for the broad and general inquiry for bonds has surpassed all expectations.
